Kasson Township Board members and fellow Planning Commission members,

After much thought, I have decided that it is time for me to step away from my service on the Planning Commission. Much has changed in my schedule and my life since being appointed to the commission.

At this time, and going forward, I simply will not be able to commit the time or be present at meetings in a way that I feel an active, engaged member should be. Consequently, I am requesting that when my term expires this coming November, someone else be appointed to the open seat.

I will certainly continue to be interested in the direction the township is taking. If need be, I may be able to offer a limited amount of time to seeing that the Master Plan is formatted and able to continue on it's path to approval. (More on that on the PC agenda for the upcoming meeting.)

It has been a pleasure and a learning experience serving with all of you.
